The best for your luxury vehicle

Our great strength is being able to meet all the insurance needs of our VIP clients, thanks to our specialized insurers.

We work together with our specialized insurers to offer you the quick and personalized service you expect.

You have purchased the Mercedes of your dreams and you wish to protect your investment? We have the solution for you.

In the case of a collector or extremely high value vehicle, did you know that it is possible to freeze the value of your car for the year? You therefore know in advance the amount of compensation you will receive in the event of a total loss or the theft of your entire vehicle.

We can also offer you higher amounts for loss of use to better match your standard of living.

Would you also like to obtain the best coverage for your home? Our insurers who specialize in luxury vehicles are also able to offer to you the same niceties for your home insurance.

We highly recommend that you contract your auto and home insurance with the same insurer. It is a winning formula and, in the event of damage to both your car and your home, your claim settlement will be much easier to process.
