Antique and modified vehicles Insurance

Are you are a car enthusiast with one or more antique vehicles in your collection?

Do you spend hours polishing your vehicle and never miss an opportunity to display your pride and joy at summer festivals?

You wouldn't think of having anything less than full protection for your masterpiece on wheels. For this very reason, we can offer you personalized coverage through our specialized insurers.

Just how does antique vehicle insurance work?

First you need to provide us with a recent, professional appraisal of your vehicle. If you do not have one, we can easily refer you to an appraiser.

Once the insurer has accepted the appraisal that you provided us with, we add the FAQ no 19 (Section B - Limitation of amount endorsement) to your auto policy by specifying the value of the appraisal. Thus, in the event of a covered loss, the amount of the indemnity will be determined using this information.

And what about my modified or Hot Rod-type vehicle?

As with antique vehicle insurance, we can offer you personalized solutions.
