Insuring my sports motorcycle

You have just purchased the sports bike of your dreams. You have a good driving record and your motorcycle is equipped with an effective anti-theft system.

You call your auto insurer to add the motorcycle to your policy. Your insurer grudgingly accepts to cover your motorcycle, but you clearly get the impression that they are not very fond of this kind of vehicle. They point out that the premium is non-negotiable, that deductibles are very high and that no additional coverage will be provided. What should you do?

As an insurance broker, we have solutions to help you avoid this situation. We work with specialized insurers to offer you the best coverage at a very competitive price.

Moreover, in the event of a claim, we team up with our specialized insurers to offer you outstanding service.
