Insuring my Harley Davidson motorcycle

Your Harley Davidson motorcycle looks awesome with its chrome features and high-performance 1300cc V-Twin engine. But there is no greater pleasure than driving it and hearing it run!

A prestige brand such as Harley Davidson makes it an obvious target for thieves and that can make your current auto insurer shudder. They may be tempted to offer you coverage with very high deductibles and a non-negotiable premium.

You saved a long time to get this motorcycle and you want to insure it properly without going broke. You even installed a recognized anti-theft system.

If you are not satisfied with your current insurer's coverage and premium, we are there to help you. We can most certainly make you an unbeatable offer in terms of coverage and premium because we work with specialized insurers.
