

[Personal Insurance](#) / [Auto Insurance](#)

Your are less than 30 years old or make low mileage?

A good driving record can pay off for a young driver under 30. That's what certain insurers believe, regardless of what you sometimes hear. They reward young drivers who maintain a good record. You can take advantage of a guaranteed premium for 2 years. Competitive discounts let you get a competitive rate that can even go as far as getting free gas and free roadside assistance.

Insurers are also thinking about people who don't do many kilometres a year. With environmental problems becoming more and more pressing and the price of gas climbing ever higher, it goes without saying that you'll want to take advantage of this excellent package!
